## DR. ART+DESIGN, MUMBAI

“The true art of banking lies not in its products, money or assets; but rather in its people, its service and its commitment towards others for it's not business of banking but art of banking.”

As the banking industry worldwide faces an era of change with customer satisfaction at its helm,

this expression also holds true for banking sectors in India today. In one such effort of a Nouveau Banking experience, Dr. Art+Design has created the world's first Art Bank at ING Vysya Cuffé Parade. This is a demonstration by Dr. art+Design of creating interactive spaces in otherwise mundane environments and routines.
